From the Headmaster's desk...

When your Grade 2 child stands in front of you, holding a bottle of fruit-juice concentrate in her hands and asks, "How do you make this?", realise that this is a learning opportunity. Put everything else aside and give a practical demonstration of how to make a perfect drink for a little girl. Mix one part juice and three parts ice-cold water, and explain that the label said we need a three-to-one ratio.

You are then rewarded by the 'Aha' written all over her face, which implies she understood perfectly; the correct relationship makes a perfect product and guarantees satisfaction! Those amazing moments when you know your child is hanging on your every word are excellent opportunities to speak deeply into their lives.

Everything in the world exists in relationship to something or someone else. Relationships imply I am here for you and you are here for me. This wonderful God - given relationship was celebrated during our Mother-Daughter Craft Morning on Saturday 23 May, where our Mothers and daughters could spend time together, connecting and realising once again how much we enjoy being together and just how much we can learn from each other. By working together as a team, we succeeded in making four beautiful craft items.

Helpful Hints

How to build meaningful everlasting relationships:

- Look at the person you're talking to (eye contact).
- Be consistent.
- Be genuine and honest.
- Listen attentively with undivided attention.
- Don't make promises you can't keep.

Sports and Performing Arts

Well done to Emma King who took part in the SANESA Gauteng West Qualifier 3 equestrian event. Emma came first in 60cm ideal time against a group of 19 riders in total. The ideal time was 84 seconds; Emma's time was 84.03 seconds.

Emma placed 6th out of 19 riders in precision and speed 60cm jumping.

“Trust is the glue of life. It’s the most essential ingredient in effective communication. It’s the foundational principle that holds all relationships.”
Stephen R Covey

Good luck to the U9 and U13 soccer players for their festival at Orion College tomorrow.

“To know when to go away and when to come closer is the key to any lasting relationship.”
D.C. Estrada

A sample of the happy faces at our Mother and Daughter day held on Saturday, 23 July 2015

In the Grade 7's Social Sciences class we have been learning about the effects of natural disasters—and then the major earthquake in Nepal happened. Although it is tragic for those affected by this incident, it provided relevant and current information for the teachers and pupils in the Social Sciences class.

Newton House Senior Primary children were privileged to host Wayne Broodryk last Friday morning. Wayne, a specialised paramedic, was part of the South African team that spent 10 days in Nepal offering assistance. It was interesting for the children to hear his first hand experiences as well as see many photos of the devastation. We were blessed by his humility and sacrifice as he served the people. We were reminded to be thankful every day for the things that we take for granted.
